

**In the Claims:**

Please add the following new claims:

<sup>22</sup>  
<sup>35 22</sup>  
22. (NEW) A retroreflective article, comprising:

a body layer having first and second opposed surfaces, the first surface comprising a structured surface comprising recessed faces that define cube corner cavities and the second surface comprising a substantially non-structured surface;

a reflective film disposed at least on the recessed faces; and

a layer of flowable radiation-curable composition that fills the cube corner cavities and is bonded to the reflective film.

<sup>23</sup>  
<sup>36 23</sup>  
23. (NEW) The article of claim <sup>22</sup><sub>35 22</sub>, wherein the second surface is planar.

<sup>24</sup>  
<sup>37 24</sup>  
24. (NEW) The article of claim <sup>22</sup><sub>35 22</sub>, wherein the body layer is polymeric.
